

FULL VIEW "PLATE GLASS" WINDOW ENVELOPES

#10, 6" x 9", and 6" x 9-1/2" Sizes

***In Stock and Ready to Ship
in Quantities as low as 50***

If you need envelopes that need to be opened immediately, for direct mail for instance, or for use as a vault to safe-keep important documents for years into the future, these 3 "Plate Glass" full views are the perfect answer. The 1/2" paper border around the windows is the narrowest in the industry, and all the better for showing off the contents within. Not only do our Plate Glass Full Views offer instant gratification to the person who opens them, they will also withstand the rigors of moving through the Post Office and years of mistreatment in a car's glove compartment.

The backbone of these Plate Glass full views, is the combination of the 2 mil thick ultra-clear Tricite window film and the tough 28 sub envelope grade, 92 brightness, paper from which they are created.

These 3 sizes also have double scored seal flaps which provide room for expansion. The scores make it possible to overstuff the envelope without distorting either the envelope or the contents.

Caution: These Full View Plate Glass Window envelopes cannot keep a secret. They will get opened.
